**(UG/PG):** UG

**Number of Credits:** 4

**Level:** 2

**Course Description**

Throughout one's life, one reads and hears about history, legends, myths, and things that do not belong, or the objects that are out of place. This course is an attempt to help students understand these phenomena through the ages, from around the world. These phenomena may be generated from scientific, traditional, or simply unusual perspectives. Throughout the course, students will try to understand these enigmas.
